Testimonials

“The HMS folks have been their usual OUTSTANDING selves [...] Could not imagine running this program and not being able to say: ‘Don’t worry about that: Jason Smith is on that,’ or ‘Michele is on that,’ or... you get the picture.”
- *Jorge Ferrand, Harris, Program Manager T4 SOA Suite*

“Phase II was an outstanding effort put forth by the team HMS assembled. The VA’s Region 1 Team appreciated the teamwork and effort that made this project a success. All of the projects should go as smoothly as this one... V/R”
- *R. Brown, COTR, VA Enterprise Framework II*

“Wow, you are good. I wish every vendor was this quick. Thanks!”
- *Sidney M. Bell, Chief Material Management Logistics – Department of Veterans Affairs*

“You are incredible – thank you!”
- *John Swinford, STARS Program Superintendent*

“Thanks, working with your group was my pleasure completely; your work ethic is infectious! I wish everyone in VA could have a chance to see what a highly motivated, very competent, totally focused work group can achieve...”
- *W. Whiteford, Department of Veterans Affairs*

In Summary

For both our clients and our partners, HMS offers seasoned employees who have worked side by side with Government personnel to improve the quality and accessibility of their IT systems and infrastructure. We bring industry-best program management, financial practice, and subject matter expertise from our experience which spans over 15 years in the Federal Marketplace. This understanding of Federal procurements has allowed us to create repeatable, efficient, and customized service delivery frameworks – tailored to each client’s operational model.

HMS has assembled hardware suppliers, system integrators, and service providers for a multitude of Federal projects and agencies to provide cost-effective pricing and installation for product-based projects. For these procurements, HMS provides an easy, one-step ordering and support process merging top original equipment manufacturers (OEMs) seamlessly into any existing enterprise.
